

Job Offer

On the Right Track With ZF

Our 4,600 engineers worldwide are looking for reinforcement in the fields of electronics, electrical engineering, as well as mechanical and vehicle engineering.

Engineers (m/f) with major in mechanical engineering, electrical and electronic engineering, feel free to register for the ZF career day on Monday, July 7, 2008, in Friedrichshafen/Germany.

ZF Group is a Leading Worldwide Automotive Supplier for Driveline and Chassis Technology. With total sales of euro 12,649 million in 2007 and 57,372 employees at 119 production companies in 25 countries, ZF is among the top fifteen companies on the ranking list of the largest automotive suppliers worldwide.

How you can draw up your own ZF picture?!

- You will spend an entire day with us and approximately 50 other persons interested in the city of Friedrichshafen, the Corporate Headquarters of the ZF Group with its corporate administration departments, Corporate R&D, as well as the headquarters of a major production location.
- You will be given the opportunity, to participate, in small groups, in a one-hour guided tour in the Corporate Research and Development Center of ZF.
- You will get in face-to-face contact with our products in the vehicles of our customers, either live on the road or on the test track.
- Furthermore, presentations by and discussions with ZF technical experts and managers will provide you with insights in the fields of technology, the company, and the corporate culture.
- And also your family will be enabled to draw up a ZF picture of their own: We have organized a highly attractive social program all around the city of Friedrichshafen.

Our requirements:

- You have successfully concluded your technical course of studies or you will conclude your technical course of studies in 2008 and you are coming from the fields of mechanical engineering, electronics, electrical engineering, and automotive engineering.
- You are looking for new challenges in the fields of driveline and chassis development.

We are delighted about your interest.

Please, exclusively apply online with a full set of documents (cover letter, curriculum vitae, certificates of employment and course of studies as PDF files) via the link Online-Application below.

Do you have any questions?

We are delighted if we can provide you with answers.
